

Grant Title: DECISION, RISK AND MANAGEMENT SCIENCES (DRMS)

Funding Opportunity Number: PD-98-1321. CFDA Number(s): 47.075.

Agency/Department: National Science Foundation.

Area of Research: Research to increase the understanding and effectiveness of decision making by individuals, groups, organizations, and society.

Release and Expiration: N/A

Application Deadline: January 18 and August 18 annually.

Amount: Rapid Response: Up to \$200,000 per award. EARly Concept: up to \$300,000.

Length of Support: Rapid Response: One year. EARly Concept: Up to two years.

Eligible Applicants: Unrestricted.

Summary: The Decision, Risk and Management Sciences program supports scientific research directed at increasing the understanding and effectiveness of decision making by individuals, groups, organizations, and society. Disciplinary and interdisciplinary research, doctoral dissertation research, and workshops are funded in the areas of judgment and decision making; decision analysis and decision aids; risk analysis, perception, and communication; societal and public policy decision making; management science and organizational design. The program also supports small grants that are time-critical and small grants that are high-risk and of a potentially transformative nature (see Grants for Rapid Response Research (RAPID) and EARly-concept Grants for Exploratory Research (EAGER).) Funded research must be grounded in theory and generalizable. Purely algorithmic management science proposals should be submitted to the Operations Research Program rather than to DRMS.
