Grant Title: DOW COMPANY - Education Grants

Funding Opportunity Number: N/A

Agency/Department: The Dow Company.

Area of Research: Supporting the efforts of local schools to enhance students' interest and achievements in math and science.

Release and Expiration: N/A

Application Deadline: Ongoing.

Amount: up to $10,000.

Length of Support: One year.

Eligible Applicants: National, state and local programs that benefit Dow communities; programs that promote systemic education reform in math and science; school districts and school boards.

Summary: The Education Grants category includes yearly grants for Education. Dow is proud to support the efforts of local schools to enhance students' interest and achievements in math and science through the company's Education Grants Program. The program is a competitive grant process that allows local public and private schools the opportunity to apply for funding for educational projects promoting interest and excellence in math and science programs. Each school can submit one application for a grant up to $10,000. Grant proposals should impact a large number of students at the school and be specific to science and mathematics curriculum. Grant funding can be utilized for instructional equipment or supplies, teacher training and staff development directly related to the purpose of the project. Substitute pay, teacher travel costs for training, incentive items and/or teacher salaries will NOT be funded.
