Grant Title: AERA-ETS FELLOWSHIP PROGRAM IN MEASUREMENT AND EDUCATION RESEARCH

Funding Opportunity Number: N/A

Area of Research: Provide learning opportunities and practical experience to recent doctoral degree recipients and to early career research scientists in education research areas.

Release and Expiration: N/A

Amount: Fellows will receive a $55,000 annual salary, relocation expenses, and ETS employee benefits. Fellows will acquire up to two years of experience in a stimulating environment that encourages excellence in research, teamwork and collaboration, and evaluation.

Length of Support: Up to two fellows will be selected for this rotational research position at ETS's offices in Princeton, NJ. Fellows will work with various large-scale assessment programs and engage in operations that are in line with their interests and with ETS's research needs.

Eligible Applicants: Candidates must have completed their Ph.D. or Ed.D. degrees within three years of beginning the fellowship. A primary aim of this fellowship is to increase the involvement of women and minority groups who are traditionally underrepresented in the fields of research that the fellowship covers.

Summary: The American Educational Research Association (AERA) and Educational Testing Service (ETS) announce the AERA-ETS Fellowship Program in Measurement and Education Research. This fellowship is designed to provide learning opportunities and practical experience to recent doctoral degree recipients and to early career research scientists in education research areas directed toward explaining student progress and achievement, including: (a) assessment design; (b) large-scale evaluations; (c) measurement; (d) psychometrics; (e) statistical analyses. Through the program, fellows will receive valuable research experience and methodological training that will prepare them for productive research careers in a range of employment contexts. Fellows will work with an experienced researcher as a mentor and will participate in structured professional development activities provided by AERA and ETS.
