Grant Title: RESEARCH ON CHILDREN IN MILITARY FAMILIES: THE IMPACT OF PARENTAL MILITARY DEPLOYMENT AND REINTEGRATION ON CHILD AND FAMILY FUNCTIONING (R01, R13, R21)

Funding Opportunity Number: PA-11-200, PA-12-223, PA-11-202. CFDA Number(s): 93.279, 93.865.

Agency/Department: National Institutes of Health, Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD), National Institute on Drug Abuse (NIDA), Office of Behavioral and Social Sciences Research (OBSSR).

Area of Research: Encourage interdisciplinary conferences and meetings to examine critical questions regarding the impact of parental military deployment.

Amount: R01: Typically up to $500,000. R13: up to $25,000 in direct costs over a two-year project period. R21: Direct costs are limited to $275,000 over a two-year project period.

Length of Support: R01: Up to 5 years. R13, R21: Up to two years.

Eligible Applicants: Public/State Controlled Institutions of Higher Education. See the full announcement for a complete list of eligible applicants.

Summary: R01: The purpose of this funding opportunity is to encourage interdisciplinary studies of the impact of parental military deployment, combat-related stress and reintegration with the family on child social and affective development outcomes as well as on family functioning. Longitudinal prospective studies with diverse samples would address important gaps in the literature and are highly encouraged. Descriptive studies addressing the particular concerns of early childhood, middle childhood and adolescence are also encouraged. R13: The purpose of this funding opportunity is to encourage interdisciplinary conferences and meetings to examine critical questions regarding the impact of parental military deployment, combat-related stress and reintegration with the family on child social and affective development outcomes as well as on family functioning. R21: The purpose of this FOA is to encourage developmental and exploratory studies on the impact of parental military deployment, combat-related stress, and reintegration with the family on child social and affective development as well as family functioning. Intervention studies targeting the particular concerns of early childhood, middle childhood, and adolescence are also encouraged, as are the development and testing of measures to assess family functioning and child development outcomes.
