Eligible Applicants: To be eligible, applicants must be a psychologist with an Ed.D., Psy.D., or Ph.D. from an accredited university and be no more than seven years postdoctoral.

Summary: The John and Polly Sparks Early Career Grant supports early career psychologists conducting research in the area of early intervention and treatment for serious emotional disturbance in children. The John and Polly Sparks Foundation partnered with APF to empower early career psychologists to produce scientifically-based research and programs that could provide models for broad-based applications across the country. APF supports original, innovative research and projects. Although APF favors unique, independent work, the Foundation does fund derivative projects that are part of larger studies. The grants are meant to encourage recipients to devote their career to methods of intervention and treatment for serious emotional disturbance in children.
