

Grant Title: ALCOHOL RESEARCH EDUCATION PROJECT GRANTS (R25)

Funding Opportunity Number: CFDA Number(s) – 93.272; Other - PAR-08-082.

Area of Research: The alcohol education area of Health Professions Education

Release and Expiration: January, 2008 release; May 8, 2011 expiration.

Application Deadline: Cycle I – January 25, annually; Cycle II – May 25, annually; Cycle III – September 25, annually.

Amount: Up to \$250,000 per year

Length of Support: Up to 2 years

Eligible Applicants: Private or Public/State Controlled Institutions of Higher Education; Historically Black Colleges and Universities (HBCUs); Tribally Controlled Colleges and Universities (TCCUs); Indian/Native American Tribally Designated Organizations or Tribal Governments (Federally Recognized or otherwise); Hispanic-serving Institutions; Alaska Native and Native Hawaiian Serving Institutions; Nonprofits with or without 501(c)(3) IRS Status (Other than Institutions of Higher Education); Small Businesses or other For-Profit Organizations; State, County, City, Township, or Special District Governments; Independent School Districts; Public Housing Authorities/Indian Housing Authorities; U.S. Territory or Possession; Eligible Agencies of the Federal Government; Faith-based, Community-based, or Regional Organizations.

Agency/Department: Department of Health and Human Services (HHS), National Institutes of Health (NIH), National Institute on Alcohol Abuse and Alcoholism (NIAAA)

Summary: NIAAA supports research programs to advance understanding of the biological and behavioral processes involved in the development, expression, and consequences of alcoholism and other alcohol-related problems. The Institute also supports prevention, treatment, and health services research on alcohol abuse and alcoholism. A part of the NIAAA mission is the dissemination of new knowledge acquired from alcohol research to diverse audiences, including scientists, educators, clinicians, and other health and social service providers, patients and their families, professionals within the criminal justice system, and the general public. This FOA identifies the research activity on alcohol education of Health Professions that NIAAA will consider for award through Research Education grants (R25). Broad ranges of educational approaches are included within the context of this FOA. Individual applications are expected to focus on the alcohol education area of Health Professions Education. This area of activity includes projects designed to support the science of dissemination of new knowledge acquired through alcohol research to a wide array of health professionals, both individuals currently practicing their professions and those in training for health professions. A broad definition of health professions is adopted, to include but is not limited to: social workers, occupational therapists, nurses, physicians, dentists, psychologists, pharmacists, counselors, and others involved in areas of physical, mental, and/or behavioral health services where target groups experience alcohol use disorders. Appropriate activities may include, but are not limited to, the development of courses, programs, curricula, and related materials designed to educate scientists, educators, service providers, and others about scientific advances in our knowledge of alcoholism, alcohol abuse, and alcohol related problems (e.g., health-related complications with individuals who have diabetes and consume alcohol), and improve science literacy in this area. This (FOA) encourages applications from applicant organizations that propose creative and innovative Health Professions research education programs in the mission area(s) of the NIAAA.
