

Grant Title: RESEARCH GRANTS TO DESCRIBE TRAUMATIC BRAIN INJURY CONSEQUENCES

CFDA: 93.136

RFA Number: RFA-CE06-003

Area of Research/Purpose of Program: Research that will help expand and advance our understanding of traumatic brain injury (TBI).

Release and Expiration Dates: November 7, 2005 release; March 3, 2006 expiration.

Letter of Intent: January 3, 2006

Application Deadline: February 1, 2006

Total Funding: Up to \$650,000 per year. \$650,000 total. One award.

Length of Support: Up to five years.

Eligible Applicants: Public and private profit and nonprofit organizations, colleges and universities, research institutions, hospitals, community-based organizations, faith-based organizations, Indian tribal governments and organizations, and state and local governments.

Agency/Department: DHHS, CDC

Summary: This funding opportunity will support research that will help expand and advance our understanding of traumatic brain injury (TBI). Applications must address the following research objective: determine the prevalence of TBI-related disability and other outcomes and related risk factors among children and youth. The overall purposes of this research program are to: (1) Build the scientific base for the prevention and control of fatal and nonfatal injuries and related disabilities; (2) Encourage professionals from a wide spectrum of disciplines of epidemiology, behavioral and social sciences, medicine, biostatistics, public health, health economics, law, criminal justice, and engineering to perform research in order to prevent and control injuries more effectively; and (3) Encourage investigators to propose research that involves intervention development and testing as well as research on methods to enhance the adoption and maintenance of effective intervention strategies among individuals, organizations, or communities.
