Summary: The Foundation supports programs and research in the United States and abroad regarding education, development, and health. Among the variety of funding opportunities are grants to U.S. programs designed to reduce inequities by improving access to educational and other opportunities for all residents. Multiple education grants are available for early learning, high schools, scholarships, and research and evaluation. The foundation works with states, districts, and individual schools to significantly increase the high school graduation rate and the percentage of students who graduate prepared for college and work.
