

Grant Title: HEALTH & EDUCATION PROGRAMS

Area of Research: Enhancing the health and education of children.

Deadline: Submit a request for contributions; requests are reviewed throughout the year.

Amount: Dependent upon scope of project and availability of funds.

Length of Support: Dependent upon scope of project and availability of funds.

Eligible applicants: The Foundation only supports US organizations with 501(c)(3) tax exempt status.

Foundation: MetLife Foundation

Summary: *Education*-MetLife and MetLife Foundation underscore our longstanding commitment to strengthening the quality of education by supporting activities and programs that improve the education system, include the classroom teacher in the process, involve parents in their children's education and provide all children, especially those who have been traditionally underserved and disadvantaged, with the resources and opportunities they need to succeed.

Health-To help people make more informed decisions about their health, grants are directed toward national health promotion and education initiatives, particularly for young people. Emphasis is given to substance abuse prevention, HIV/AIDS prevention and education, healthy aging and promoting healthy lifestyles. Support is also provided for research on Alzheimer's disease.
