

CYFS Research Support

The Nebraska Center for Research on Children, Youth, Families & Schools (CYFS) offers complimentary services to help you conceptualize, develop, submit and manage your grant-funded research. We also provide an array of additional research support services, including statistical analyses; database management; and communications and media support. By working with CYFS, you'll take advantage of our:

CONSISTENT TRACK RECORD

On average, 41% of the grants we submit are funded. We understand the importance of your research and have the resources to help you reach your funding goals.

EXPERIENCED PERSONNEL

Our team consists of researchers and staff members who also specialize in research support. We provide expertise from diverse perspectives and have the capacity to work with you at all stages of your research.

ESTABLISHED NETWORKS

We've spent years building a reputation among federal agencies, grant reviewers and scholars as a center that produces high-quality research and has the necessary infrastructure for comprehensive research support.
